

THE ISLES Board of Directors is actively seeking greater homeowner involvement in our property owners association. We have created four committees that require homeowner participation. If you would be interested in helping your community, please check boxes below to indicate how you may wish to serve.

FINANCE & ADMINISTRATION COMMITTEE - Will identify and apply the best practices of community association management; develop the annual budget and keep cost low through sound fiscal controls.

ARCHITECTURAL CONTROL COMMITTEE - Works to assure that all construction and improvements on Isles properties comply with community standards and guidelines.

PROPERTY MANAGEMENT COMMITTEE - Works to maintain and enhance common areas of the association including: pond water quality, entrance planting beds, landscaping, park benches, and dog waste stations.

COMMUNITY SERVICE COMMITTEE - Will assess community interests and concerns and work to improve communications and increase homeowner involvement through newsletters, activities and events.
